# Gabe's Development Assessment

June 2011

## Language:

We gave Gabriel the following assessment over the period of a few days. It was administered loosely for some items, simply observing or asking Gabe questions, and rather structured for others, orchestrating recognition exercises, counting words and stacks of blocks, etc.

### Labeling:

1. Names concrete objects in environment (should name 7 out of 10): **10**  
He named all 10 items: Mit, Calculator, Sunscreen, Camera, Sunglasses, Hammer, Tape, Bracelet, Fingernail Polish, Paint Brush
2. Names plural form to refer to more than one:  
Years, 3 Months
3. Understands use of concrete objects ("what do we use to eat with?"): **80%**  
80% of the time he answers simply and accurately, the other 20% he answers with related information drawn from experience
4. Recognized and names articles of clothing: **80%**  
He knows the basics: shirt, pants, socks, shoes, jammies, jacket, but confuses pants and shorts and long- and short-sleeve shirts
4. Recognized and names pieces of furniture:
